#### Final important thought.

The primary purpose of this trip to Lake Park HS is to expose each of you to a competitive environment featuring many of the best bands in the Midwest. We will receive feedback from judges as to what's good, what's not so good, and what we need to do to improve our product. It is important for you to carefully observe other competing bands after your performance and photo session. Check out what other bands are doing and how they are doing it!

The North Band staff believes that to become “the best” it is necessary to compete with “the best.” Let's **work together** to make this trip and performance successful.

#### ***Today Matters!***

Please be on time and remember all of your stuff. Thank you.
